O R D E R:

In paragraph 2 of the order first cited, the Government informed the Director of Agriculture that sowing time of the crop was the criterion for the Crop Competition and not the period of harvest which might take place in the subsequent fasli year. In his letter third cited, the Director of Agriculture has now stated that the adoption of sowing time of the crops as the criterion for the crop competition would involve considerable delay in the declaration of prize winners in the Crop Yield Competitions with the consequential delay in the selection of competitors for the All India Prize, which should be completed by 15th August of every year according to the intimation from the Indian Council of Agricultural Research. To obviate the delay and to facilitate the declaration of the prize winners in the crop yield competition in time for furnishing the list of competitors for the All India Prize, the Director of Agriculture has suggested that the harvests of crops which fall in a fasli year may be taken as the criterion. The Government accept the above suggestion of the Director of Agriculture and in modification of the orders issued in para 2 of G.O.Ms.No.73 Agriculture (Food Production) dated 10-3-54, direct that the period of harvest of the crops which falls in a fasli year shall be taken as the criterion for the crop yield competition.

2. In view of the orders in para 1 above, the Director of Agriculture is requested to examine urgently the rules issued by him for the conduct of the Crop Competition in 1955-56 and issue suitable amendments to them.

3. With reference to his letter fourth cited, the Director of Agriculture is informed that the Government do not see sufficient justification for according general permission for the relaxation of the date of enrolment of competitors. He is requested to submit necessary proposals for relaxation for the approval of the Government as and when such cases arise.
